

# WINTER RECES CAMP

DATES: FEBRUARY 19 - 23 • TIME: 9 - 1 PM

## Celebrate National Engineering Week at the Maritime Explorium.

Don't miss these exciting activities planned by our guest engineers and educators -

- Staff from Microsoft will conduct a coding workshop using the ever popular Minecraft game. Students will play in Minecraft while they learn how to code with Microsoft's MakeCode platform.

- Learn the engineering design process with the team from the **Stony Brook University's Dept of Light Engineering** and their **Snappy XO** robots. <http://snappyxo.com/>
- How do astronauts land from space without hurting themselves? The **Biomedical Engineering Graduate Students Society** will conduct the infamous and highly addictive and fun egg-drop experiment.
- Engineers from the **Institute of Electrical and Electronics Engineers** will bring their "Robot Turtle" friends and your campers will leave learning and *LOVING* how to code!

**Register online now to save your spot!**

### Fee per camper:

**\$360** (non-members), **\$324** (members save 10%!)  
Extended hours during public hours (available ONLY with advance booking at time of registration) - **\$25** per 2 hr increments.

# 2018

**Our campers will be introduced to scientific inquiry and engineering design concepts.**

**Camp is geared towards  
Grades 2 and up.**

**MARITIME  
EXPLORIUM**
